# Abalos asks New ILO exec to push for gender equality at work

## Congress to decide on automation

By Jeremy Doring

Secretary of Labor and Employment (DOLE) Secretary Jesse Abalos expressed optimism as he announced that Congress would decide on automation in the coming months.

"Gender equality is an issue that we have been pushing for a long time," he said. "We have been pushing for it for a long time, and we have been pushing for it for a long time. We have been pushing for it for a long time, and we have been pushing for it for a long time."

Abalos said that the new ILO executive director, who will be taking office in January, will be pushing for gender equality at work. He said that the new director will be pushing for gender equality at work, and he will be pushing for gender equality at work.

Abalos said that the new ILO executive director, who will be taking office in January, will be pushing for gender equality at work. He said that the new director will be pushing for gender equality at work, and he will be pushing for gender equality at work.

By Jeremy Doring

With the introduction of the new ILO executive director, the Philippines is expected to see a new focus on gender equality at work. The new director will be pushing for gender equality at work, and he will be pushing for gender equality at work.

Abalos said that the new ILO executive director, who will be taking office in January, will be pushing for gender equality at work. He said that the new director will be pushing for gender equality at work, and he will be pushing for gender equality at work.

# 400 PERCENT HIKE DENR chief notes entry of P518B in investments

By Patricia Barretto

THE DENR chief noted that DENR's 1998 investment budget is 400 percent higher than the 1997 budget, a result of the DENR's 1997 investment budget of P128 million.

Environment Secretary Jesus Velasco said the DENR's 1998 investment budget is 400 percent higher than the 1997 budget, a result of the DENR's 1997 investment budget of P128 million.

"This is a huge increase," Velasco said, "comparing the 1998 budget of P518 million to the 1997 budget of P128 million."

There were increases for environmental management, pollution monitoring, and other DENR programs, Velasco said. He also noted that the DENR's 1998 investment budget is 400 percent higher than the 1997 budget, a result of the DENR's 1997 investment budget of P128 million.

# Threat of bird flu pandemic growing daily, WHO warns

## Turkey fights on to stop outbreaks in people, poultry

GENEVA — THE THREAT OF A WORLDWIDE PANDEMIC OF BIRD FLU HAS GROWN DAILY, THE WORLD HEALTH ORGANIZATION (WHO) warned early on Monday as health officials reported almost a dozen outbreaks in people and poultry.

WHO said the outbreak in Turkey, which has been the most active in the world, was the most serious yet. It said the outbreak in Turkey was the most serious yet, with at least 10 people and 100,000 poultry birds infected. WHO said the outbreak in Turkey was the most serious yet, with at least 10 people and 100,000 poultry birds infected.

## No-el debate unmarks elitist politics

The debate over the role of the state in the economy is a perennial one. It is a debate that has been fought over and over again, in one form or another, since the beginning of time. It is a debate that is as old as the hills, and it is a debate that is as relevant today as it ever was.

The debate is not just about the economy, however. It is also about the role of the state in society, and about the rights and responsibilities of citizens. It is a debate that is as broad as the horizon, and it is a debate that is as deep as the sea.

The debate is not just about the economy, however. It is also about the role of the state in society, and about the rights and responsibilities of citizens. It is a debate that is as broad as the horizon, and it is a debate that is as deep as the sea.

## Developing sub-plots

The development of sub-plots is a crucial part of the creative process. It is a process that allows the writer to explore the complexities of the story, and to create a rich and nuanced narrative. It is a process that is as important as the development of the main plot, and it is a process that is as challenging as it is rewarding.

The development of sub-plots is not just about the story, however. It is also about the characters, and about the themes of the story. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

The development of sub-plots is not just about the story, however. It is also about the characters, and about the themes of the story. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

## Voices On INQ7.407

The voices of the community are an important part of the story. They are the voices of the people who are affected by the story, and they are the voices that give the story its meaning and its power. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

The voices of the community are not just about the story, however. It is also about the characters, and about the themes of the story. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

The voices of the community are not just about the story, however. It is also about the characters, and about the themes of the story. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

## the play's plot

The plot of the play is the central element of the story. It is the sequence of events that drive the story forward, and it is the element that gives the story its structure and its meaning. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

The plot of the play is not just about the story, however. It is also about the characters, and about the themes of the story. It is a process that is as broad as the horizon, and it is a process that is as deep as the sea.

Figure 1 consists of two line graphs. The left graph plots 'Growth rate (log CFU/h)' on the y-axis (ranging from 0 to 1.0) against 'Temperature (°C)' on the x-axis (ranging from 10 to 50). The data points show a peak growth rate of approximately 0.8 log CFU/h at 37°C. The right graph plots 'Growth rate (log CFU/h)' on the y-axis (ranging from 0 to 1.0) against 'Temperature (°C)' on the x-axis (ranging from 10 to 50). The data points show a peak growth rate of approximately 0.8 log CFU/h at 37°C.

## Manila braces for French designer Christian Lacroix retrospective

**L**AST WEEK, WHEN WE TURNED our attention to the fashion world, we mentioned the Christian Lacroix retrospective in Manila. It's the first time the French designer and his work have been showcased in the Philippines.

Lacroix is a French designer and his work is known for its bold and colorful designs. He has been a member of the Chambre Syndicale de la Haute Couture in Paris since 1987. His work has been featured in many museums and galleries around the world.

Manila's first Lacroix retrospective will be held at the Manila Museum of Art. The exhibition will feature a collection of Lacroix's work, including his designs for the 1997 film "The English Patient" and the 2001 film "The Piano Lesson".

The exhibition will run from January 14 to January 21, 2009. Tickets are available for purchase at the Manila Museum of Art.
